SISTER PIE ALLERGEN STATEMENT

Sister Pie is a shared-equipment kitchen, meaning we do not have separate kitchen equipment (including ovens) that we use for products with common allergens. We keep our kitchen very clean and thoroughly wash and sanitize equipment, surfaces, and hands in-between use, and do our best to consider allergies when making our food products, however we cannot guarantee that there will be no risk of cross contamination as we are not an allergen-free bakery. Sister Pie aims to be as transparent as possible about our practices for the safety of our guests.
